

ICHRA Masters

What is an ICHRA?

A flexible health benefit for the modern workforce

An Individual Coverage Health Reimbursement Arrangement (ICHRA)

allows employers to offer a more personalized, budget-friendly alternative to traditional group health plans. Through monthly contributions, businesses support employees in covering their individual health insurance premiums and qualified out-of-pocket costs.

Smarter benefits. Simpler experience.

Our streamlined ICHRA solution makes it easy for employers to offer healthcare on their terms—without sacrificing quality, compliance, or support.

How ICHRA Masters Works:

Discovery & Setup

We work closely with brokers to establish contribution, levels, eligibility rules, and documentation.

Custom Platform Configuration

We build an enrollment experience tailored to the client's specific ICHRA design.

Launch & Training

Employers and employees get access to a user-friendly online platform, with built-in support tools and live assistance.

Ongoing Support

Our team stays involved with responsive service and guidance to ensure a seamless, worry-free experience for everyone.
